Javier Otero

AEM Backend Developer · Adobe Certified Expert

PROFILE

Backend developer specialised in Adobe Experience Manager, with 3+ years on large-scale AEM projects. I work with Java, Apache Sling, OSGi and JCR on ICEX's multi-site platform: REST integrations, Dispatcher configuration, platform migrations (AEM 6.5 → 6.6 LTS on Java 21), security and troubleshooting complex issues.

EXPERIENCE

AEM Backend Developer · VASS
Oct 2024 – present

ICEX multi-site platform on Adobe Experience Manager · in-house employee

- Backend development with Java, Sling Models, Sling Servlets, OSGi and JCR.
- Integration with REST APIs and external services.
- Components, templates, DAM and reusable features.
- Dispatcher/Apache configuration and troubleshooting: rewrites, caching and error handling.
- Migration from AEM 6.5 to AEM 6.6 LTS on Java 21.
- Maven, Cloud Manager, CI/CD and OSGi bundles.
- Resolving security, CSP and AEM architecture issues.
